

ACC Jobline Gets an Upgrade

Community

[ACC Jobline](#) is the go-to job bank for in-house counsel job seekers and employers and aims to enhance the process for how in-house counsel hire and are hired across the world.

For job seekers, the updated Jobline includes easy online access through both desktop and mobile devices, job alerts for position matches, and the ability to track and monitor all applications in the “career center.”

Jobs are easy to search for in multiple ways. Job seekers can either use the basic search bar, browse the Featured Jobs on the homepage, or search by categories like Labor Relations or Healthcare.

New aspects for employers include a discounted job posting package for ACC members and the ability to send job posts to outside sites like ZipRecruiter or LinkedIn with ACC’s Partner Network. Plus, companies can utilize the new visibility boosts which can feature a company logo on the career center homepage or send job alerts directly to candidates.

Job seekers and employers can sign up at jobline.acc.com. Returning users can log in with their existing username but will be required to reset their password.
